

Making Africa Work Facts & Figures 2017

Making Africa Work is a government funded programme aiming to create jobs in five African countries: Ghana, Kenya, Morocco, Rwanda and Sierra Leone. We pair-up (diaspora) entrepreneurs living in The Netherlands with a partner in Ghana, Kenya, Morocco, Rwanda or Sierra Leone. Our goal? Develop at least 40 business plans within one year. Here we present our results through facts and figures. Please note when viewing our numbers that there are multiple entrepreneurs per business plan in several cases.
